EXPERIENCE

Perfecting

Freelance
Design & Product
January 2026 – Present

AI salestech where sales reps practice voice calls with simulated buyers. A fast-paced, four-person startup where I work across the whole cycle, from research and design to production code.

- **77 of 135 reps in the FIESC System active within 3 weeks**, with 470 sessions; the federation committed to purchasing the platform.
- Designed the roleplays and voice agents, with evals that validate every version before production.
- End-to-end design of every rep and manager flow, including the platform's design principles and a design system from Figma to code.
- Interviews and meetings with reps and managers, plus a weekly report on each client's usage results.

Atomsix

Product Designer
June 2025 – Present

Product consultancy (SaaS, apps, PLG/SLG websites) for clients in the US, Europe and Brazil, from discovery to delivery.

- **WeCann (healthtech):** AI-powered medical record as a clinical copilot, with answers grounded in cited scientific evidence, and a design system that reduces doctors' screen fatigue.
- **netLex (legaltech):** contract management redesigned into Spaces by department, with an AI-recommended action at every stage of the contract.
- **Portonave (logistics):** digital visitor gate for a port terminal, with scheduling, a messaging sequence and a check-in kiosk.
